List to PC knowledge:

Very good EDP / PC knowledge.

Applications:

Office packages:

Microsoft Office	Very good practical and theoretical knowledge in all applications of the MS Office (particularly Word, Excel, ACCESS).
Star Office	Property of knowledge in usual applications.
Corel Office	Very good practical knowledge in all applications of the package.
Lotus Smart Suite	Property of knowledge in usual applications.

Wordprocessors for Web Design:

Net Objects Fusion	Very good practical and theoretical knowledge.
HTML wordprocessor phase 5	Property practical and theoretical knowledge.

Additionally I am trusted with numerous other application programs (e.g. image processing, software for scanner, Visual Basic 6,0 Professional, Flash, Fireworks, Dreamweaver, QuarxPress etc.).

Languages / know-how:

Retrieval languages to the data base search: SQL, GOLEM, dialog.

Specification languages for Web Design: HTML (WWW), WML (WAP), rudimentary knowledge in XML.

Programming languages (only rudimentary, no complex programmings): Java, Visual basic, Perl, script languages (JavaScript, VB Script).

Operating systems: Windows 95/98, Windows NT 4.0/2000, BeOS

Very global practical and theoretical experience in Web Design, thus the conception, creation and the updating of Internet appearances (see www.luetzenburger.de (digital visiting card), www.luetzenburger.purespace.de (more detailed homepage), http://wapmatic.de/home/wapluetzenburger (WAP page), in the context of a project in the Gerling company (activity of 19.07.-13.10.2000) also layouts in the company-owned Intranet (with Microsoft Frontpage).

 On-line searches in Internet or Intranet data bases (large practical experience (home PC, federal state parliament, Gerling)).
